

VALRITE LUNYAJI HAMILTON

Lake Worth, Florida | Email: valritehachi@gmail.com | Phone +1 (561) 951-5503

GitHub: <https://github.com/Valritehachi>

Portfolio: <https://my-portfolio-swart-pi-40.vercel.app>

SKILLS

Test Automation: Playwright • Selenium WebDriver • PyTest • API Testing • Regression Testing

Languages: JavaScript • Python • TypeScript • HTML/CSS

Cloud/DevOps: AWS Lambda • EC2 • Docker • GitHub Actions

AI/ML: Claude API • Prompt Engineering • Test Case Generation

PROJECTS

VIRTUAL QA PLATFORM | Next.js, React, TypeScript, Playwright, AWS Lambda

<https://virtual-qa.vercel.app> | GitHub: <https://github.com/Valritehachi/virtual-qa>

Built a cloud based testing platform that accelerates and simplifies QA workflows by supporting both no-code and automated testing workflows.

- Developed cloud-based QA platform automating test creation and execution.
- Used Claude API to auto-generate test cases from descriptions
- Implemented real-time test monitoring with screenshot capture and log streaming
- Ability to run tests concurrently on AWS Lambda infrastructure

Result: Reduced manual test creation time by 75% for testers

AUTOMATED TEST SUITE – ShipSticks Booking Platform | Playwright/TypeScript

GitHub: github.com/assetfoundry/shipsticks_automated_tests | [1243 commits, 100+ tests]

Collaborated with other developers to build a comprehensive test and was part of the creation of the runner.

- Created end to end tests covering booking, payment, and shipping flows etc
 - Reduced regression testing time by 50%
 - Maintained test health by keeping a high constant pass rate and documented all test cases
-

PROFESSIONAL EXPERIENCE

QA Tester – AssetFoundry

January 2024 – March 2026 | Lake Worth, Florida – Remote

- Designed and executed automated test cases using Playwright and conducted regression and performance testing.

- Reported and tracked bugs in Jira while collaborating with developers.

AI Data & Image Annotator – Sama Source Kenya

2020 – 2022 | Kenya

- Annotated images and text for AI/ML models, including segmentation, object detection, and classification.
 - Maintained 98% quality accuracy across all labeling tasks
 - Trained team members on annotation standards and best practices
-

EDUCATION & CERTIFICATIONS

ALX SOFTWARE ENGINEERING PROGRAMME

Front-End Engineering Specialization

2023 – 2024

TECHNICAL UNIVERSITY OF KENYA

Bachelor of Science in Land Administration & Information

Geographic Information Systems (GIS)

2014 – 2019
